1

Kitchens decorated with natural elements

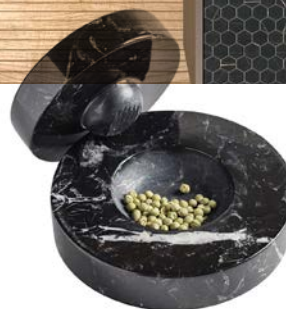

The new kitchen trends are more calm and natural. In this case, our marble glass mosaic is also considered as a natural product. Many requests as countertops made of natural Stone, marbles, micro cement on floors, wood furniture and chair fibers came from our final customers.

*Black
kitchens
make
a stylish
impact*

2

The last 6 months the search on internet of “black kitchen” became a trend. In combination with natural elements as wood will create a stylish and modern kitchen _____

*Shabby chic
and nordic style
is coming back
more relaxed
but in an elegant
way*

3

Shabby chic has become more popular. This modern and simple style refers to a home with a clean and neutral color palette. Especially greys, blues and light green in combination with white is starting to be a trend again _____

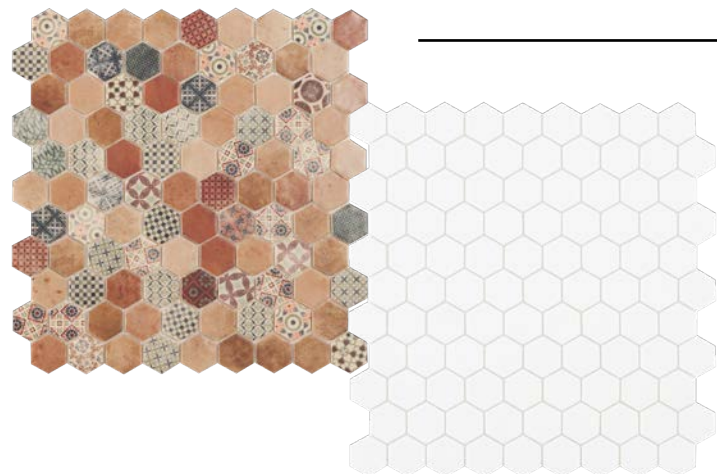

4

Mixing modern and vintage home decor

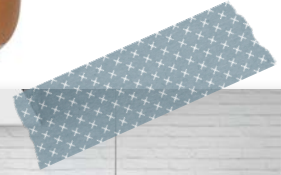

In the last 12 months, the internet search “VINTAGE” has grown by 96%. The mix of vintage with modern furniture is an easy way to give your home a unique look with your own personality.

5

Dark blue and earth colors conquer the House

Earth tones, in our closest case, Mediterranean tones are a timeless trend and are still in demand at home. Especially Denim Blue or Classic Blue are booming.

Dark Blues

Dark blues are a great decoration option. Especially in modern spaces since they are versatile colors with positive and relaxing connotations. Ideal for areas where we spend a lot of time. Facilitate concentration and provide calm, they are ideal for bedroom or study and work areas.

*What is
the concept of the
bathroom-boutique
and why do
we like
it so much?*

Bathrooms have changed radically in the last decade. They have become one of the main spaces of the house. There is great demand in built-in taps and wall-hung sinks. Wallpapers, mosaics, paintings, also towels, rugs, furniture... showing like a boutique with so much detail.
